DENTAL SURGEON
In Champion Tuesdays,
Fridays and Saturdays.

Battle of Music Coming May 15th

Dancers and lovers of music
are looking eagerly forward to
the "Battle of Music" on Friday,
May 15th, when the Len Davis
Axeandians and the Jones' Mel-
ody Men, of Cardston will play
for a dance in the Champion
Community hall. Both these
orchestras are very popular
wherever they have appeared,
and with the audience making
the decision in the contest, a
real evening may confidently
be anticipated. The time is
very fortunate as seeding will
be completed and everyone
should welcome an opportunity
for recreation and especially
such an opportunity as this will
provide. The hall should prove
small for the occasion.

Norman Alcock In Calgary Hospital

Norman Alcock, son of T. G.
Alcock, was stricken with ap-
pendicitis last Thursday and
was rushed to the Holy Cross
hospital, Calgary, where he was
operated upon early Friday
morning. While the case was
a serious one, latest reports are
to the effect that he is now
making very satisfactory prog-
ress.

Norman Alcock was reported
to have had a relapse on Wed-
nesday and Mr. Alcock was
driven into Calgary by H. E.
Gill. Later news, however is
rather more reassuring. Mrs.
Alcock has been in Calgary
since Norman was taken to the
hospital.

Place of Sale Changed

J. C. Atkins' auction sale on
Saturday, advertised at his
premises, to commence at 6.30,
will be held instead in the old
drug store building, beginning
about 7 o'clock.

Tons of Money Friday

"Tons of Money" will be pre-
sented on Friday evening. The
cast of characters and the musi-
cal program appears elsewhere
in this issue.

Golf Flourishing Again

Martin Clever's presence in
this vicinity means that golf
will be played, no matter what
difficulties present themselves.
When the course for which he
was largely responsible was a-
bandoned owing to encroaching
buildings, it looked as though
golf as a pastime was over for
good here. Now Mr. Clever
has enthusiasm at a high pitch
again, having laid out a new
course in a field on his farm,
and golfers are largely in evi-
dence again.

While the weather still re-
mains dry, the earlier sown
crop is up nicely, and on fall-
ow at least there is still no
real shortage of moisture. Sav-
ing of wheat is nearing its end,
although plentiful moisture
might result in a larger average
being sown, particularly of
coarse grains.

The Women's Institute will
meet at the home of Mrs. P. O.
Summers on Tuesday May 12th
at 2.30 p.m. Roll Call. "What
constitutes a good citizen."
Speaker, Mrs. Stephenson. Sub-
ject, Canadianization. Refresh-
ment convener, Mrs. Alexander.

Don't forget Mother next Sunday
May 10th. Campbell's suggest flowers
plants and box candies.

Death Claims J. R. Miller

The death occurred in the
Galt hospital, Lethbridge, at 8
o'clock on Saturday morning
of J. R. Miller, aged 46 years,
and was brought to Champion
about three weeks ago by his
brother, A. J. Miller, suffering
from heart trouble, to which
he had been subject for some
time. A week later he was re-
moved to the Galt hospital
where despite all medical skill
could do for him he passed
away on Saturday. Three
brothers and two sisters sur-
vive him, namely, A. J. Miller,
Champion; D. Miller, California;
J. E. Miller, Arkansas; Mrs.
Frank Howard, Perry, Missouri
and Mrs. F. L. Davis, Center,
Missouri.

The funeral took place from
the United church on Sunday
at 3 o'clock. Rev. Peter Dawson
officiating, and the remains
were laid at rest in the Cham-
pion cemetery. Many beautiful
wreaths of flowers testified to
the esteem in which the de-
ceased was held.

Card of Thanks

A. J. Miller and family wish
to thank the many friends who
came to their assistance in
their recent bereavement. Trib-
utes of flowers were received
as follows:
Amity Club, Mr. and Mrs. Harry
Smith, Mr. and Mrs. Harold Smith
and Mrs. John Cain, Mr. and Mrs.
J. A. Miller, Mrs. J. W. McElroy,
Ashmore Family, McNaughton Fam-
ily, Mr. and Mrs. F. Wise and Family,
Mr. and Mrs. H. Higgins, the Carlson
Family.

Rome Conference Fails

"London says: "The Rome
conference appears to have
been unproductive of construc-
tive results. Subsequent con-
ference to be held in London
next month is likely to meet
with a similar fate. Construc-
tory cartillage of acreage, ex-
port quotas and other artificial
restrictive measures cannot be-
come effective, particularly
while Russia is apparently un-
willing to cooperate. Inter-
national government interference
itself is undoubtedly one
of the primary causes of the
present world-wide disastrous
wheat situation. General and
statistical situation remains as
bearish as ever. World pro-
duction continues to tremble
in excess of world consumption.
Surpluses and carry-overs have
reached gigantic proportions.
New United States winter
wheat prospects indicate heavy
crop, conditions in Russia point
to production well in excess of
last year's big total. United
States Farm Board holdings
constitute a depressing in-
fluence, comparatively small
Argentine exports to day sug-
gest heavier clearances later on
and government restrictions on
European countries are mini-
mizing import requirements. At
the same time, the present
price level largely discounts the
bearishness of the situation.
European surpluses have be-
come comparatively small, and
a heavier consuming demand
must be expected. We look for
steady markets, reflecting crop
news and consumptive demand
—Scarle Grain Report.

NOTES AND COMMENT.

According to a writer in MacLean's Magazine there is a decided mix up in the U.F.A. Progressive combination in the House of Commons. Four members of this group are claimed to have turned Conservative, making a decided rift in the ranks. A great many people will regret that this change of allegiance did not involve the entire group. In spite of statements to the contrary by members of the U.F.A. or Progressive element it is very doubtful if they ever accomplished a fraction of the good claimed by themselves and some of their supporters. In fact the whole independent and farmer movement has been out of the hands of the farmers and independents for a long time and in the hands of a clique of as dyed-in-the-wool politicians as ever was produced in Canada. What merit these organizations had has been lost by the leadership going into the hands of a talking minority, who are looking after themselves to the exclusion of everyone else.

If all the farmers and the wheat pool found going long on wheat a profitable deal, can anyone imagine that A. J. Macauley or Norman Priestly would have presented the evidence they did before the Royal Commission? Of course there would have been no commission of inquiry in that case, because the idea that any gambling had been done would have been scouted, but would there have any evidence offered there was an inquiry under such circumstances? In other words did not the whole question rest on the fact that farmers and others in the three prairie provinces had lost some \$200,000,000 in what one ingenious wheat pool director describes as "an effort to stabilize wheat prices"? The report of the commissioners is not yet available but to follow the evidence presented it would appear that a bunch of losers were responsible for the expensive Royal Commission.

In this connection did either Mr. Macauley or Mr. Priestly have any right to suggest they represented any particular number of farmers before the commission? If the members of the U.F.C. or of the U.F.A. were ever unanimous on any proposition, then they differ from any that have come under observation around this part of the country. The chairman of the commission punctured Mr. Priestly's claim by obtaining the admission that no meeting of the farmers he claimed to represent had passed on the written evidence he presented. Mr. Macauley was even more unfortunate in his experience, failing to explain his own statements lucidly enough to be understood.

Thirty farmers of the Indian Head district of Saskatchewan have accepted an offer of the Board of Trade to grow small

plots of wheat, oats and barley from seed supplied by the board in preparation for the World's Grain Exhibition and Conference at Regina in 1932. The grain is donated by the board of trade and expert attention to planting, caring for and harvesting the crop will be provided. A ton of fertilizer has been donated to the board by a commercial institution as its contribution to the effort of the farmers of the district and the business men of the town.

Suggest Remedies
For Soil Drifting

The Alberta Agricultural Board which is made up of representatives of the Dominion and provincial departments of agriculture, the University of Alberta, the C.N.R. and C.P.R., the Pools, U.F.A., seed growers, and livestock growers of the province, met in Edmonton, Thursday, April 30th, and among other things, discussed the question of soil drifting. As a result of the discussion the following recommendations are being published in connection with this very serious problem. The Alberta Board of Agriculture approves of the following recommendations in connection with soil drifting.

(1) That as long as the present period of drought and high winds generally prevails, the seeding of land subject to drifting be delayed as late as possible.

(2) That farmers should avoid unnecessary field cultivation.

(3) That seeding at right angles to prevailing winds is desirable. Plowing of occasional furrows after seeding across the fields at right angles to prevailing winds, particularly on knolls, is recommended.

(4) Drifting does its most serious damage on summer-fallows. Prevent recurrence of damage in 1932 and following years by adopting this season "small-field" or "strip-farming" methods. Avoid having a large acreage of summer-fallow in one field.

Four times as much money was invested in provincial savings certificates during the first four months of 1931 as was invested during the corresponding period of 1930. Figures released by W. V. Newson, deputy provincial treasurer, on Tuesday, showed that the total paid, in balance for the year, to date, is roughly \$1,800,000 as compared with a balance of \$437,000 paid in during the same months last year.

A hired auto returning from the races, and conveying some rather inebriated racegoers, had pulled up at a level crossing where the gates were shut.

Presently an express rushed past.

"What was the row of houses we just passed?" asked one of the passengers of the others.

"I dunno, but the chimney of the first was alight."

May Harness Natural Gas Going To Waste In Turner Valley To Generate Electric Power

Millions of feet of natural gas now going to waste every day in the Turner Valley, Alberta, may be harnessed to generate electric power for industrial and domestic purposes. A proposal to do this has been submitted to the Alberta Government by a British corporation, according to press reports. It is stated that the corporation offers to spend \$100,000,000 on the project at the outset and a total of \$100,000,000 within 15 years and to begin work on the construction of a plant within 90 days from the time the approval of the Alberta Government is given to the proposal. The plant will be capable of generating 70,000 horse power of electricity within a year.

The plan for this new project, as outlined, is to collect the waste gas in Turner Valley into one pipe line running to the power house, which will be used to turn specially-designed turbine wheels for the generation of electrical power for which a market would be secured in industrialization of southern Alberta. The power house would be located at a point probably 30 miles from the Turner Valley and it would not depend alone on gas from Turner Valley but would utilize also gas from other fields. The corporation proposes, it is stated, to offer the electric power generated for sale in the provinces of Manitoba, Saskatchewan, Alberta and British Columbia, and also in the border states of the United States. The Government of Alberta is asked to pass legislation covering all gas companies or individuals, whose gas is escaping and not being put to use, to supply the corporation with such gas at a price to be fixed through the Public Utilities Board. In consideration for the establishment of such a plant as proposed, an exclusive franchise for a period of 99 years to the corporation is requested. Provision would be made, it is stated, for the Alberta Government to take over the plant on an equitable basis at some time in the future.

The scheme for utilization of the Turner Valley and other waste natural gas would produce three-thirds of a cent per kilowatt-hour.

Blind Will Benefit By New Invention

Instrument Produces Raised Letters From Ordinary Pages

Robert E. Naumburg, of Cambridge, Mass., has demonstrated for the first time a "printing visagraph," an instrument that produces magnified, raised letters from the pages of ordinary books.

The visagraph reproduces large, embossed letters on a wide roll of thin aluminum foil, with the result that the finished product corresponds in some respects to the Braille system. Naumburg estimates that his machine will increase the reading range of the blind a thousand-fold.

A Brain Involigator

A tube a tired business man can slip over his head to give his brain cells an invigorating diet of electricity was one of the wonders of science presented to the convention of the American Electro-Chemical Society at Birmingham, Alabama. The "stim tube," J. A. Lee, connected with a trade publication, explained, can be used to reduce fever.

A Quick Thinker

Farm Labourer, to hiker crossing a farm. "Didn't you see the sign saying pedestrians ain't allowed here?" Hiker, with great presence of mind: "I'm not a pedestrian, I'm a Congregationalist!"

Labourer: "Oh, that's different. You can go on."

Manager: "I have just signed a contract for you to appear against Smith."

Champion: "I can't box him—he's enemies."—Buen Humor, Madrid.

FARM MANAGER

A. R. Judson, who is farm manager of the Dauphin zone for the Canada Farm Finance Corporation

Saskatchewan Coal Mining

New Regulations Governing Leases Are Made Public

Reduction in the maximum, and increase in the minimum area allotted to any one lease is provided for in the new coal mining regulations as published in the April 18 issue of the Saskatchewan Gazette.

Under the old Dominion government regulations the maximum area allowed was 2,560 acres, while the minimum was 20 acres. Only one location was allowed to any one person.

The new regulations provide for a maximum area of 640 acres in any one location, but provide for three locations to a person. Thus the total area provided for under the new scheme is 1,920 acres. The minimum size is 1,600 acres.

The new regulations change the regulations, except that under the present plans, any lease must have a clear sheet with the department before he can obtain a new location or have an assignment registered.

Good Seed Pays For Itself

Grain With Fine Record Of Production Finds a Market

We have heard of an Eastern farmer who sold a great deal of his wheat for two dollars a bushel. We did not hear the price at which he sold a great many of his oats, but the figure was a decidedly fancy one for this season.

The secret? He sold wheat and oats with a fine record of production behind them. Nor was that all; he found out customers who wanted a really good thing and had sufficient cash to pay for the same.

This year as in other years, the man with a really good article to sell who makes his article known to the public has little difficulty in making good sales. There is still another secret in this affair. This farmer kept his eyes open for good seed himself and bought liberally of varieties that had a record of achievement behind them.

Measurements Accurate

Geodetic Survey Of Canada Made By Line and Triangles

Accurate measurements can be made across country by means of a measured line on the ground and a system of triangles. The triangulation of the Geodetic Survey of Canada, Department of the Interior, is conducted with the greatest degree of accuracy. Its usage involves the determination of the size and shape of the earth, the location of international and provincial boundaries, and furnishes points of control for the general maps of the country. Adjusted geodetic points in great numbers are available to the public in every province of the Dominion.

MERINOUE OF RICE

Put a cupful of rice into a pint of boiling water, and when the water has boiled away add a pint of milk, a piece of butter the size of an egg, four eggs and the grated rind of a lemon. Butter a pudding dish, pour in the mixture and bake until it sets. Beat the whites until dry, add half a cup of sugar and a tablespoon of lemon juice. When pudding is done spread the frosting over it and brown light on top.

The American golden plover, which breeds in Arctic America, migrates the entire length of North and South America, wintering in Patagonia.

Trans-Canada Highway

Desirability of Linking Up East With the West Is Pointed Out

The desirability of linking up the incomplete portion of the trans-Canada highway is the subject of a letter sent to Premier R. B. Bennett recently by the western division of the Canadian Automobile Association.

The association stresses the fact that hundreds of thousands of Canadians, regardless of politics, realize the vast possibilities in the completion of the highway at the earliest possible time, because it will provide an artery for a tremendous volume of tourist traffic which now must make use of the United States highways in their passage from east to west.

"There is no estimating the number of Canadians," the letter reads, "who are looking to this day when the Big Bend connection between Revelstoke and Golden, B.C., will be completed. But they are more in doubt in regard to the 500-mile span in western Ontario, which may be regarded as the bridge between the east and west."

Canadian Zinc To Europe

Twenty-Three Cars From Northern Manitoba Shipped To London and Hamburg

The largest shipment on record of made-in-Canada electrolytic zinc is en route from a large smelting plant in Northern Manitoba to London and Hamburg. The shipment was composed of a 23-car train destined to Halifax, Nova Scotia, thence overseas. The cars are filled with zinc, and the remainder to Hamburg. Since the first shipment left the smelting plant at Pin Point last November, no less than 247 cars of blister copper and zinc have been shipped. Of this total 99 cars have been filled with zinc and 148 have been zinc. Most of the shipments have been consigned to eastern Canadian centers and to the United States.

Grist Mill For Moose Jaw

Western Grist Mills Limited of Moose Jaw has started the erection of a 100 barrel mill and expects having it completed in time to handle the 1931 crop.

Trade With China

Canadian Products and Exporters Held In High Regard In Shanghai

Canadian trade in Shanghai has suffered less than that of most other countries from the general world depression, according to Lieutenant-Colonel L. M. Cosgrave, Canadian trade commissioner at Shanghai, who is in Vancouver to spend several weeks conferring with importers and exporters and to make an intensive study of coast and western products suitable for the Chinese trade.

Canadian products and Canadian export houses are held in high regard in Shanghai and other parts of China. Their standing is at least equal to that of any foreign country and there is a distinct feeling of friendliness which augurs well for the future, Colonel Cosgrave reports.

Frog Farm Builds Up World Trade

Was Started Eight Years Ago On Outskirts Of Vancouver, Washington

A frog farm on the outskirts of Vancouver, Washington, has proved to be such a success that the owner is called upon to deliver frogs faster than the frogs come out of their winter hibernations in the mud to be shipped to New York or perhaps Australia.

When the farm was started eight years ago, two of the biggest patrons have been Florida and Louisiana, which were former prolific frog lands. The trade of the farm is in sending pairs of mature frogs for the purpose of starting other frog ponds.

Superfluous Words

"Her observations covered 145 schools in fifteen different States. Why 'different'?"

"Personally, I don't think so." Why "personally"? Do you mean that officially you do think so?

"This line is to be linked up with that one." Why "up"?

National Research Council Investigates Problem Of Effective Vaccine Against Tuberculosis

CANADA FARM FINANCE

"According to the committee of the National Research Council on tuberculosis research, much work remains to be done before the problem of an effective vaccine against tuberculosis is solved."

This statement was issued following an important conference on the subject in Ottawa, in which the leading doctors specializing in the study of tuberculosis took part.

The statement sets forth that the committee agrees "B.C.G." confers a degree of resistance to tuberculosis, but the nature and extent has not been clearly demonstrated. Further studies are to be conducted to clear up these points definitely. About 1,000,000 infants have been vaccinated against tuberculosis. "B.C.G." is the vaccine of the Pasteur Institute of Paris.

The statement describes the work of the committee, which is headed by "B.C.G." (named after Prof. P. Calmette, the director of the Pasteur Institute and his colleague, Guérin), has to date been in various countries to vaccinate a total of approximately 1,000,000 infants against tuberculosis.

In the effort against tuberculosis it has been put forward as a preventive measure that would eventually be adopted by the general public method now commonly employed of destroying animals reacting to the tuberculosis test.

"Canadian researches on tuberculosis have been widely discussed in both Europe and America, particularly by Dr. E. A. Watson, of the animal diseases research station, Dominion Department of Agriculture, at Regina, in the summer of 1932.

One of the most attractive displays in the educational section of the exhibition will be that from the Province of Quebec. It has been decided to take a space of 200 feet frontage in the Exhibition building in order to give the thousands of visitors an idea of the agricultural activities of Quebec.

The centre feature of the exhibit will be a Quebec farm, complete with buildings, live stock, field crops, bushes, etc., flanked on either side with exhibits of natural resources of the province, including mineral, lumber, power development, handicraft and manufacturing products.

Argentina is the sixteenth country to officially accept the invitation of the Canadian Government to attend the Exhibition and Conference. The complete list of participants at present is as follows: Italy, Peru, Yugoslavia, Guatemala, New Zealand, Czechoslovakia, The Netherlands, Belgium, Poland, Spain, India, Portugal, Switzerland, Estonia, The Philippine Islands and Argentina.

No Hearsay Evidence

Court Case That Was Settled In Common Sense Way

It is well to see things done in a sensible way. To illustrate. In an Ontario city there was a quiet case in court. One farmer claimed that a fire started in the bush by his neighbor, had spread to his property and had spoiled the land by burning off the top part of the soil.

Instead of calling in the officials, solicitors, and witnesses, took a trip out to the property in question, and along with them they had spades and shovels. They actually went to work and gouged holes in the ground to see if the damage was as serious as claimed, and to find out exactly what had taken place. Returning to court, the decision was made that the fire damage claim had not been sustained.

Not Looking For Miracles

Western Farmers Will Fight Way Back To Prosperity

"Twenty-five years from now we will be growing a good deal more wheat than today, and selling it in the world's markets," said Hon. C. A. Marshall, one-time minister of agriculture in the Alberta Government, addressing the Eastern Canada Livestock Union at Toronto.

"Taken as a whole, I can say that the farmers in the Canadian prairie are not looking for a miracle to happen, or anybody to turn the country's economic upside down. They are going to wait through better days, as they have fought through earlier depressions," he declared. Mr. Marshall has just returned from a month's motor tour through the West.

Did Not Choose To Speak

A young woman who wished to engage Calvin Coolidge in conversation, when he was president, told Mr. Coolidge that her father had said a wager that she couldn't get him to utter three words. She expected that he would start in talking. But he said quietly: "Dad wins!"

Preparing Attractive Display

Quebec Is Taking Large Space At World Grand Show

His Excellency the Governor-General has consented to act as chief of the world's grain exhibition, and conference which will take place at Regina in the summer of 1932.

One of the most attractive displays in the educational section of the exhibition will be that from the Province of Quebec. It has been decided to take a space of 200 feet frontage in the Exhibition building in order to give the thousands of visitors an idea of the agricultural activities of Quebec.

The centre feature of the exhibit will be a Quebec farm, complete with buildings, live stock, field crops, bushes, etc., flanked on either side with exhibits of natural resources of the province, including mineral, lumber, power development, handicraft and manufacturing products.

Argentina is the sixteenth country to officially accept the invitation of the Canadian Government to attend the Exhibition and Conference. The complete list of participants at present is as follows: Italy, Peru, Yugoslavia, Guatemala, New Zealand, Czechoslovakia, The Netherlands, Belgium, Poland, Spain, India, Portugal, Switzerland, Estonia, The Philippine Islands and Argentina.

Dr. R. S. Ferguson, director of the Fort Qu'Appelle, Banff, Fort San, Sask., reported on the tuberculosis investigation that has been carried on under the auspices of the committee among the Indians of that district. He said that a family history of the Indians showed that within three generations there has been deaths from tuberculosis in nearly every family on the reserve. The first tuberculosis epidemic was between the years 1880 and 1900. To indicate the effectiveness of the work that was now being done, Dr. Ferguson reported that, while the incidence of tuberculosis among the Indians in 1928 was twenty times that of the preceding generation, it was today only thirteen times, a reduction of one-third during that period.

Dr. E. M. Tordy presided at the conference and 25 men and women engaged in the study of the disease took part.

Increase In Poultry

Value Of All Poultry In Canada Placed At Fifty-Four Million Dollars

Poultry keeping on the increase in Canada. The total number of poultry on the farms in the Dominion at the end of last year was estimated at 60,785,000, of which 36,247,000 were hens and chickens; 2,899,000 turkeys; 1,169,000 geese and 236,000 ducks. The value of all this birds is placed at \$54,552,000. Two years ago the total number of poultry was 53,779,000. Poultry are considered the principal commodity in all of the provinces of Canada. The principal centre of the industry is the Province of Ontario.

"I know the business! Father, I was very useful in the last place it was I who used to call out to the 'Hunt'! Here I'm talking. But he said quietly: 'Dad wins!'"

—Pages Gates, Yverdon.

OTTAWA PASSES ESTIMATES FOR PUBLIC WORKS

Ottawa, Ont.—The House of Commons buckled down and spent a solid day discussing and voting supply. Public Works Department estimates were under consideration, with particular reference to votes for public buildings in Ontario and the West. While there was plenty of criticism from varying angles, fair progress was made. When the House rose, a total of \$2,229,150 had been voted, covering appropriations for the provinces of Ontario, Manitoba, Saskatchewan, Alberta, and British Columbia. When adjournment came the House had under consideration the general appropriation of \$562,200 for buildings in different parts of the Dominion.

Estimates for public buildings in Ontario, totalling \$1,400,000, were passed. The corresponding vote a year ago was \$2,616,323 and of this \$170,000 was revoked. The estimates include \$70,000 for the Toronto customs building.

A. L. Desautels (Lib., Provencher), aired a grievance when the Manitoba vote was called. The 1920 estimates passed by the King administration contained \$12,000 for a post office at Dominion City, which was not in change in governments, the work was not proceeded with.

Hon. H. A. Stewart, minister of public works, stated that the course followed in this instance had been sound. The member himself had said that the annual revenue would be \$1,300. The salary of the postmaster would absorb this sum and the post office would then have to be maintained, later on, when the money, repairs made and there would be a general debt against the building.

A. A. Heaps (Labor, Winnipeg North), agreed with the minister of public works in opposing the erection of public buildings which did not produce revenue.

The House then approved the appropriation for public buildings in the province of Manitoba which totals \$1,700.

Proceeding to the Saskatchewan appropriations which total \$176,000, the House quickly ran through the individual items. They include, \$38,000 for a public building at Watrous, \$28,000 for a public building at Neussack, \$22,000 for one at Lumsden, and \$31,000 to pay the third instalment on the purchase of the Regina armory.

A protest against reduced estimates in the prairie provinces, as compared with amounts provided for the Atlantic Canada, was voiced by T. F. Donnelly (Lib., Willow Bunch). The western provinces, he asserted, had no provisions for public buildings above a far greater reduction than in the East.

Mr. Stewart stressed the large number of claims which had been made upon the department of public works. He had to be very careful in view of the many demands. Mr. Stewart referred to the construction under the previous administration of an immigration hall in Mr. McIntosh's constituency. Today this building was not needed and about the only use it could be put to was possibly occupation by the Mounted Police. Discretion consequently must be exercised so that no mistakes would be made.

The estimates for Saskatchewan and Alberta were then passed.

Finner Hand In India

Believed That Lord Willingdon Will Inaugurate Stiffer Policy

Dondon, England.—Lord Willingdon takes up residence at the seat of his capital in India this week-end and it is generally believed he will inaugurate a policy somewhat stiffer than that of Lord Irwin.

Sir Geoffrey Denham, governor of the Punjab, said recently that the Punjab government's policy of toleration had bred licence, and would not be continued. The Punjab government, he said, would no longer stay their hand, but would deal properly with breaches of the law. The situation in the other Indian provinces is similar to that in Punjab.

Fishing Ships Forfeited

Ottawa, Ont.—Four ships of United States registry are considered to be forfeited to the Crown for fishing with in Canadian territorial waters on the Pacific Coast, under a judgement rendered by the Supreme Court of Canada recently. The judgement confirms the findings of the local judge in authority at Victoria, B.C.

Searching For Lost Explorer

Ship With Airplane Carrying Provisions Has Left Iceland

Copenhagen, Denmark.—A wireless message received at Reykjavik, Iceland, purporting to be from Augustin Courtaud, British scientist who is lost in Northern Greenland, stated: "Absolutely without provisions."

An aeroplane which has left Iceland with the Iceland inspection ship "Odin," will fly from the edge of the ice barrier to Taosok and to Angmagssalik, searching for Courtaud on route. If the plane can find him it will drop provisions on the ice for his use.

He is believed to be somewhere in the vicinity of the station at which he was left to spend the winter and obtain meteorological data for use of British Arctic air route expedition. The site of this station has not been located thus far by rescue missions which have gone to Courtaud's aid.

Heavy Grain Shipments

Nearly 30 Million Bushels Sold For Immediate Export

Montreal, Que.—Nearly thirty million bushels of grain have been sold for export in the last few days, and nearly 50 tramp steamers chartered to carry it across the Atlantic, together with the regular export ships, during the early part of the St. Lawrence season are steadily improving.

Grain freighters have improved and one steamer was booked last week to carry 50,000 quarters of grain to Havre and Dunkirk during the first half of May at 12 cents a hundred pounds. The rates are below what was expected, and are thought to be higher than those prevailing during the greater part of last season.

Preparing For Flight

Bert Hinkler, Australia Flyer, Interviewed In Toronto

Toronto, Ont.—Bert Hinkler, skilled aviator, who is making the attempt to fly from London to Australia in a light machine in 1928, is now at a local airport here, and much conjecturing as to his immediate plans is being made by local aviators.

Interviewed by a local newspaper, Hinkler stated that he does not know where he is going, but he is sure that he will be going somewhere, but he refused to discuss the matter of a flight.

It is believed, however, that he will suddenly decide to fly to South America, thence across the South Atlantic, or perhaps fly to Australia via Vancouver. A North Atlantic hop via the northern route is also suggested as a possibility.

Grain Probe Report

Report Containing 40,000 Words To Be Tabled In House Of Commons

New York, N.Y.—The work of the Royal Grain Commission, appointed by the Canadian government, to decide whether or not trading in grain futures is injurious to the interests of the Canadian producer, is now being reported by the members of the commission.

The report, which members said, contains 40,000 words, is expected to be taken to Ottawa by L. B. Pearson, secretary to the commission, and it is expected, will be tabled in the House of Commons.

Thresh Last Year's Crop

Saskatoon, Sask.—Threshing will be completed in the territory around Prince Albert this week, according to F. J. Mollard, travelling superintendent for the Pool Elevators, who has returned from an inspection trip in that area. Due to wet weather last fall, the threshing season was a considerable quantity of grain remained in the stock. This grain has wintered well and in for the most part grading straight.

War Claims Heard

Ottawa, Ont.—A total of 457 cases have yet to be reported by the war claims commission, Errol McDougall, minister of war, said, of which 308 claims have already been heard, leaving a balance of 149 cases. If, however, jurisdiction is admitted in the claims arising out of the Armenian massacres, which were filed in 1921, there will be an additional 271 cases yet to be reported on.

Many Deported

Ottawa, Ont.—Of those who came to Canada under the 3,000-family scheme, 261 persons, including men, women and children have been deported. Hon. W. A. Gordon, Minister of Immigration and Mines, said in this reply in the House of Commons to a question by H. E. Spencer (D.F.A., Battle River).

Princes Welcomed Home

Prince Of Wales and Prince George End Long Journey

Windsor, England.—The Prince of Wales and his brother, Prince George, ending an 18,000-mile trade mission to South America, returned to the family hearth in London, joyfully welcomed by the King and Queen.

Their arrival at Windsor Castle from Paris after an absence of three weeks and a half month was the occasion for a happy family reunion. Their parents and the Duchess of York, greeted them enthusiastically. Princess Elizabeth, their niece, threw her arms about their necks and gave them each a kiss.

Prospects Good For Cattle Shipments

Increased Demand From Great Britain Is Indicated

Montreal.—Shipments of Canadian cattle to Great Britain are being well maintained and evidence indicates that there will be an increased demand from the British market this season. The first shipment from Montreal this season left April 30, aboard the "Manchester Commerce," taking 442 head, while seven other lots are booked for May and June. All shipments will average around 400 head.

Action Taken By France Will Aid Sale Of Wheat

Winnipeg, Man.—France's increase in the percentage of foreign wheat to be mixed with the domestic product will "help a lot" in improving exportation of Canadian grain, according to A. P. White, president of the Winnipeg Grain Exchange. France, it is announced, increased the percentage of foreign wheat for mixing with the domestic product in 1927.

White said that the move would aid somewhat in decreasing the Canadian surplus but he expected no drastic rise in Canadian prices.

Any removal of restrictions against foreign wheat on the continent tended to improve Canada's position," Mr. White stated. He also intimated that it would benefit other countries shipping wheat to France.

He was unable to state whether the increase in the percentage of foreign wheat for mixing, made by France, would result in a lowering of all tariffs and an increase in demand for the Dominion's product.

John I. McFarland, general manager of the Central Selling Agency of the Wheat Pool, believed France's action gave a brighter outlook for the removal of Canada's surplus.

Several weeks ago, he said, France increased the percentage and it caused an improvement in export. "The rates to 25 per cent," he added, "will be welcomed."

"Germany," Mr. White revealed, "is at present contemplating the lowering of her tariff against foreign wheat which would aid further in the clearing of Canada's surplus."

The European countries, he said, will shortly come into the market for wheat, resulting in a lowering of all tariffs and an increase in demand for the Dominion's product.

NOTED ECONOMIST

Two Lives Lost When Machine Crashes At Brandon

Brandon, Man.—The first major plane crash in the history of Brandon brought death to two young airmen when their machine crashed from a height of 1,000 feet and burst into flames near the local aerodrome.

The victims were: William Clark, 21, owner of the plane, and son of Col. and Mrs. F. J. Clark, Brandon, and William Britten, 27, pilot of Wawanesa, Man.

Returning from a flight to Wawanesa, the airman were preparing to land at the aerodrome when the plane veered into a spin, exploded and burst into flames.

Like a rocket, it dived to earth, bringing instant death to the pilot and owner.

It was some time before the flaming wreckage could be approached by airport attendants, and the bodies, entangled in the debris, were charred beyond recognition. Nothing was left of the "plane" but the bones, twisted steel work.

Hundreds of persons flock to the scene of the crash, and police had great difficulty in keeping the crowds away from the fire-stricken wreckage.

British Economist Gives Opinion On Depression

Might End In Three Months Says Sir Josiah Stamp

New York.—The end of the present economic depression in Canada and before the end of the next three months, Sir Josiah Stamp, noted British economist, told the Canadian Chamber of Commerce.

The depression will probably come to an end in both countries simultaneously, he said, although recovery in the United States might be somewhat more rapid than in Canada.

"I do not want to say the depression will end in three months," he said, "but I think it will end before the end of the next three months."

He said it would not end before May. It has not ended and I now believe it cannot end before the end of another three months."

Value Of Corn Imports

Runs Into Millions and Duty May Be Demanded

Ottawa, Ont.—Canada is importing, for purposes other than distillation, about 12,000,000 bushels of corn worth over \$1,000,000 every year.

This information, given to the House of Commons in answer to a question some days ago, may be of value to the farmer who has imported corn, which now enters the Dominion free.

The corn, brought from the United States, and even from the Argentine to some degree, is used for feeding livestock in the central provinces. It is the claims of some western M.P.'s that the eastern market for feed should be belong to prairie growers of the United States.

The question of the future of demand for the reduction of freight rates on these grains, when shipped for domestic consumption, has already been voiced. A stiff duty on foreign corn may now be asked.

President Of Canadian Press

Toronto, Ont.—M. E. Nichols, vice president and managing director of The Winnipeg, Man. Tribune, was elected president of the Canadian Press, succeeding John Scott, managing director of The Toronto, Ont. Mail and Empire, who for personal reasons declined a third term.

Mr. Nichols, who has been vice president and managing director of The Winnipeg, Man. Tribune, was elected president of the Canadian Press, succeeding John Scott, managing director of The Toronto, Ont. Mail and Empire, who for personal reasons declined a third term.

QUAKE CAUSES HEAVY LOSS IN SOUTHERN RUSSIA

Moscow, Russia.—Early earthquakes in the Soviet Republic of Azerbaijan in Transcaucasia caused fear that the local population in the widespread disturbances, which started Monday, April 27, may amount to about 500, already unofficially estimated.

More than 2000 persons were injured in the original quake Monday, April 27, which wrought great destruction in the southern Transcaucasian sections of the Soviet Republics and was felt most severely in Armenia. Today's renewal of shocks occurred in the Zangazur district of Azerbaijan.

Great suffering is reported in many sections and in some places residents have deserted their stricken villages and are living in the open. All communications were disrupted at certain points and authorities are having difficulty determining the exact number of persons injured.

The government has launched relief work and provided 500,000 rubles (about \$250,000) for immediate use where suffering is acute. Medical supplies are being rushed to the devastated areas, where hospital shelters are being erected to care for the most seriously injured.

While no definite estimation of the amount of damage has been made, it is certain to run well over \$1,000,000.

Labor Vote Split

Conservative Candidate Wins In By-Election Held In England

Aston-Upon-Avon, England.—Facing a hoisting and jostling mob, Sir Oswald Mosley, brilliant young Socialist leader, who had been expected of them, and figuratively snapped his fingers in the faces of more than 1,000 disgruntled electors of the Labour party.

The demonstration came shortly after the result of the by-election in this constituency was announced. Sir Oswald Mosley, Conservative, won the seat from J. Gordon, Labor, and A. Young, Mosley's New Party candidate—but he did not seem for the moment to appear Labor would not have lost the seat.

Broadhead polled 12,420 votes; Gordon, 11,005; and Young, 4,472. Given even two-thirds of Young's vote, Mosley would have won the seat.

Gordon would have won the seat by a slight majority. As it was, the split in the Labour vote was too great a handicap for Gordon.

The constituency has ever been a stormy rock in the political sea. Sir Oswald Mosley and Broadhead were in the town hall waiting for the result. With Mosley were several scores of young men, many of whom, known, an angry crowd gathered outside.

Gordon was taken out of the building by a mob from under side door. He was taken to a nearby house, however, went to the front door. He passed at the top of the stairs and was escorted by a crowd of young men, who hoisted and jostled him.

With hands in his pockets, and a slight smile on his face, Mosley walked off slowly from the steps into the street. The crowd roared around him, but he continued walking slowly. Police closed around him and escorted him to his hotel headquarters. Despite the turmoil and the threatening appearance of the mob, Mosley returned to his room without a scratch.

With hands in his pockets, and a slight smile on his face, Mosley walked off slowly from the steps into the street. The crowd roared around him, but he continued walking slowly. Police closed around him and escorted him to his hotel headquarters. Despite the turmoil and the threatening appearance of the mob, Mosley returned to his room without a scratch.

With hands in his pockets, and a slight smile on his face, Mosley walked off slowly from the steps into the street. The crowd roared around him, but he continued walking slowly. Police closed around him and escorted him to his hotel headquarters. Despite the turmoil and the threatening appearance of the mob, Mosley returned to his room without a scratch.

No. 20

Published in the interests of the People of Champion and Farmers of this vicinity.
GEO. L. DEPUÉ, Editor.

Oil production in the province of Alberta reached the high total of 1,438,911 barrels during the year 1920, according to revised figures compiled in the Department of the Interior and based on the reports of operators. The December total, which showed the highest monthly output on record, was 175,072 barrels. An analysis of the figures for 1920 shows that 1,313,000 barrels of naphtha were produced in Turner Valley during the year, the remainder being light and heavy crude.

Norman Aleock is reported as taking a turn for the worse on Wednesday, H. E. Gill taking his father, George, to the scene by car.

"Tons of Money" this

Friday, folks, Co-annuity Hall, auspices Ladies' Aid.

A go-getter is a fellow who cuts out of gasoline two miles from a filling station.

The local golf course is now ready for play during the year 1920, according to revised figures compiled in the Department of the Interior and based on the reports of operators.

Then there was the absent-minded professor who laid out his pants under the blanket and hung himself on the bedstead.

Our heartfelt sympathy goes out to the Miller family in their recent and bereavement.

The Mc-Drig ball-bearing cream separator is so easy to turn that a woman or even a child can operate with ease. Experienced persons know that a plain bearing cream separator with its high speed will have a much shorter

life and be less efficient in operation than a ball-bearing cream separator of the Mc-Drig type.

She was only a dry goods man's daughter—but oh! what notions she had.

Barbara and Mrs. Dow are both reported well on the road to recovery.

Are you getting the cream? A Mc-Drig Cream Separator will.

Mayor Anton Ceremak states that he intends to make Chicago's police department the most courteous in the world. Gangsters may now rely upon being shot like gentlemen.

The large fish and storages are beginning to show up again.

CHAMPION

ALBERTA

Local and General

Mother's Day—Sunday, May 10th.

Dr. and Mrs. Freezes were visitors to Calgary during the week.

J. T. Stephenson is local agent for the Steele Floral Co. of Calgary.

Born—On Tuesday, April 28, to Mr. and Mrs. Royal Ruggles, a daughter.

The Amity Club was entertained last week at the home of Mrs. A. J. Miller.

Both Mrs. Dow and Barbara are reported to be making continued satisfactory progress.

The twenty-first anniversary of the reign of King George and Queen Mary was passed recently.

Dr. and Mrs. Heal have moved to the residence lately vacated by Mr. and Mrs. D. W. Harper.

Born—To Mr. and Mrs. Felix Strauss, at Mrs. Speer's private hospital, Vulcan, on Monday, April 20th, a daughter.

The management of the local theatre announces that the silent pictures on Saturday nights will be discontinued until further notice.

Wheat prices are strengthening slightly again, despite unfavorable exports. Dry weather over all three prairie provinces is largely responsible.

The Manitoba Pool proposes to permit individual members to sell their own wheat if they wish, retaining only the elevator handling of the grain.

K. R. McLean, R.O., of McLean & Anderson, Sigsbee, Specialist, 224-8th Ave. W., Calgary will make his monthly visit to Champion Friday, May 29th, at the Drug Store.

A high wind and dust storm on Wednesday, was followed on Thursday morning by a fall of sleet which effectively laid the dust for the time being, although little more up to noon.

Champion clean up week will hold from May 11th to 16th, and the town authorities are requesting general co-operation in this very laudable undertaking. It is to be hoped general interest will be taken in this effort towards improving appearances as well as protecting the public health.

Early Ohio Spuds, extra early No. 1 seed, Special \$1.00 bushel at Campbell's.

Improved Squaw Gum by the bushel at Campbell's.

Nice ripe bananas 45c per doz at McCullough's.

Mr. and Mrs. R. B. Maxwell, Miss A. Lucia, Mrs. Clara Ashmore, E. Aultman and Jas. Ashmore were among those who attended a dance at Lethbridge, held under the auspices of the Elks and Royal Purple.

The Blosson Ladies' Aid are holding a sale of home products and a tea in the old drug store on Saturday afternoon. Naturally this is one of the things you do not want to miss.

Church Notes

Mother's Day service in the United Church May 10. Subject "The Mother Love of God." Music, solo "My Task," Anthem "Faith of our Mothers."

We hope to have the new hymn books for Sunday, May 10th.

Keep in mind the special offering on Mothers' Day.

Hoffles—most charming, most adept and most benevolent of burglars—ducks for millions against the best brains of Scotland Yard. See him—All talkie Thursday May 14.

YOU won't believe what we tell you about Pathfinder quality until you actually see the Pathfinder Tread Good Year for yourself. To look at it you'll know it's a good tire. You'll see thousands of miles of safe traction in its tread. You'll know its sturdy carcass means long wear. You'll realize that its price means value that can't be equalled. Let us show you your size.

IN MEMORIAM

In loving memory of Frankie Scott, who died May 12th, 1920, aged 9 years and 8 months.

Two lonely years have passed away Since our great sorrow fell, Still in our hearts, we mourn the loss Of him we loved so well.

We mourn for him in silence, We make no outward show, The heart that mourns sincerely, Mourns silently and low.

Sudden was his death to all, The greatest shock to all, But when God His summons sent We could not refuse His call.

Champion United Church
Rev. Peter Dawson Minister
